Technical Concepts: Object Oriented Programming (OOP), MVC Architecture, Responsive Web Design, Debugging.

Soft Skills: Time Management, Teamwork, Communication, Problem Solving, Leadership, Adaptability

EXPERIENCE

Junior PHP Developer(Trainee)

June 2025 - Present

Fortigrid ICT India private Ltd

- Developed responsive and user-friendly web pages using HTML, CSS, Bootstrap, JavaScript, and jQuery.
- Built and tested backend features with PHP and the Laravel framework.
- Integrated Laravel Blade templates to streamline frontend-backend development.
- Designed and managed MySQL databases, including writing queries and implementing CRUD operations.
- Applied problem-solving skills in a collaborative training environment, preparing for real-world projects.
- Contributing to an internal HRMS project focused on employee management and HR workflows.

Python Full Stack Intern

October 2024 - March 2025

Camerinfo Pvt Ltd., Kakkanad, Ernakulam

- Designed responsive UI with HTML and CSS, ensuring a seamless user experience.
- Developed and integrated RESTful APIs for efficient data exchange between frontend and backend.
- Designed and managed database models and migrations with Django ORM.
- Utilized Django admin panel for efficient data management and testing.

EDUCATION

Bachelor of Computer Application - V V College of Science and Technology

2024

PROJECTS

Food Delivery System for Train Passengers

github.com/Ajil77/Train-food-delivery

- A food delivery system for train passengers that allows ordering meals based on train and PNR details, connecting users with location-based vendors.
- Implemented HTML/CSS in frontend and Python Django for backend.
- Implemented vendor management and admin approval module, allowing vendors to register, manage menus, and enabling admins to approve vendors.

Job Portal Web Application

github.com/Ajil77/django-iris-ml-project

- Built a full-stack job portal using Django with secure user authentication, role-based access, and job application workflows.
- Developed responsive frontend using HTML, CSS, and Bootstrap, integrating file uploads for resumes and logos.
- Utilized SQLite and Django ORM for efficient data handling, with an admin panel for user and job management.
